

**You have a 401(k)
at work – That's great!**

So now what?

EMPLOYEES: Learn How To Optimize The Power of Your 401(k)

**Attend
Navigator Planning Group's
10 Steps to Potential 401(k) Success**

Date: 3/6/2012

Time: 12:00 PM

Location: Brillion High School Technology Center

The 401(k) plan has become the single largest source of retirement savings for a majority of American workers. If you participate in your company retirement plan, the good news is that you have more control over your retirement money. The bad news is that you have more control over your retirement money.

For people who do not have the time or the financial knowledge, properly managing your 401(k) can be a daunting task. Moreover, if you do not manage it properly, the 401(k) can become, at best, a savings account, and at worst, a high risk gamble with your retirement money.

If you are interested in learning more on how to properly manage your 401(k) account, attend our seminar and we will walk you through the 10 Steps to 401(k) Success that have helped thousands of corporate employees succeed with their 401(k).

Steps Include:

- Appropriate Risk Tolerance Levels
- Strategic Portfolio Allocation
- Proper Rebalancing
- Tax and Inflation Consequences
- And More
